LinkedIn: linkedin.com/in/abdulrehman-shaikh-a690a8399/

Career Objective

Highly motivated Data Scientist skilled in Python, NumPy, Pandas, Matplotlib, and Seaborn. Strong in data cleaning, visualization, and real-world project development.

Technical Skills

Programming: Python
Libraries: NumPy, Pandas, Matplotlib, Seaborn
Core Skills: Data Cleaning, Visualization, Trend Analysis, Real-world dataset handling

Summary of Skills

• Data Cleaning & Preprocessing
• Trend & Pattern Analysis
• Python Scripting
• Handling Real-world CSV/Excel Data
• Creating Visual Charts & Insights
• Problem-solving & Logical Thinking

Tools Used

• Jupyter Notebook
• VS Code
• Anaconda

Projects

Instagram Profile Cleaner & Analyzer
Cleaned and arranged followers, following, and bio datasets using Python.

People You May Know
Suggested potential connections using mutual links.

Pages You Might Like
Recommended pages based on user patterns.

Sales & Trend Analysis
Analyzed real sales data using Pandas.

Education

12th Pass
BCA (Hons), Parul University, Vadodara — Currently Studying (4-year course)

Languages

English
Hindi
Gujarati

Additional Strengths

Good communication
Ability to work with real datasets
Quick learner
